We look forward to customizing an apparel or floor mat program for you.
Family Owned.
Customer Focused.

Thank you for taking a moment to learn more about Plymate. Now a fourth generation family business, our continued commitment is evident in our expanded facility and our investment in the latest technology for garment handling and tracking.

What makes a vendor the perfect choice for you is as individual as you are, but we have found there are three primary reasons why we earn and retain customers:

- **We offer the “best of both worlds”** — We are unburdened by corporate hierarchy, so we can respond quickly and with flexibility to meet your needs. Yet as members of the CSC Network alliance of independent laundries, we have the purchasing power necessary to compete and thrive against the “big boys.”

- **The most experienced coworkers in the industry** — The loyalty of our workforce is exhibited in our high coworker retention rate, and their attention to customer satisfaction is at the core of our philosophy. Tenured coworkers who think “customer first” set us apart from the rest.

- **Recognized ethical business practices** — Trusting the people you do business with is paramount. Our founder Glenn Plymate used to point to our trucks saying, “That’s our family name. Take good care of it.” Doing the right thing is a fundamental value that everyone embraces at Plymate. We are proud to have earned statewide recognition for our ethical business conduct.

We hope you will want to learn more about our story and we would welcome the opportunity to learn yours. Please feel free to contact us directly.

The Plymate Difference

You can get uniforms, floor mats and corporate apparel from a number of companies. So why choose Plymate?

We Make Service Personal

Many companies say it, but we deliver — service is our first priority. Plymate creates customized programs for large and small companies. We’ll never offer you a one-size-fits-all solution — that’s just not the way we do business. In fact, everyone at Plymate rides along on one of our routes every year to better understand our customers’ needs.

Award-Winning Ethics

We’re proud to have earned the trust of our customers and our community. Plymate has been recognized and awarded for our ethical approach to business, our commitment to improving our products and services, and as a great place to work.

Some of the awards we have received include:

- American Business Ethics Award
- Better Business Bureau Ethics Award
- Best Places to Work in Indiana
- BKD Business Excellence Award
- Blue Chip Community Business Award
- Top Work Places

But more important to us than awards is our 96% customer retention rate. Nothing pleases us more than continually building long-term relationships with our satisfied customers. In fact, every Plymate coworker is paid a quarterly bonus based on customer retention.

Over 87 Years of Experience

Our company has been in business since 1930, and we have learned valuable lessons along the way. We offer the flexibility of a local, independent, family-owned business. That means you can call an owner when you need to get an answer from the top. Our decisions are based on fostering long-term relationships, not short-term results intended to please Wall Street.

“In my opinion the transition from previous supplier to Plymate went very well due to Plymate’s professionalism and its team. I have changed vendors several times over my career and I am pleased to say that Plymate has their change over process down to a science. Very Good Job! Thank you Plymate for making it easy!”
